Questions for the Week

- 1. What Scriptures counter the common notion that people have the "free will" to choose God? (Try Rom. 9:16; James 1:18.) Why do our hearts often gravitate towards the idea of free will even when it comes to the things of God?*
- 2. Philippians 1:6 says that God begins to work in the lives of a believer. What would happen if salvation didn't begin with God? Would we ever choose God on our own, without him?*
- 3. Think of a strong faithful Christian in your life. What evidence of God's salvation do you see in them? What evidence do you see in your own life?*
- 4. What would you say to a friend who approached you admitting, "I've been going to church for years, but honestly I don't see any evidence of God changing me"?*
